SEED DOLOGY

KNOX SEED COMPANY

STOCKTON, CALIFORNIA

VOL. I.

STOCKTON, CALIFORNIA, EARLY FALL, 1929.

No. 3

Knox Seed Company Moves Into Handsome New Home

MOST MODERN SEED STORE IN CALIFORNIA

On August 1st, the Knox Seed Company moved into their new building at 509-511 East Weber Ave. This wonderful new store gives them the most up to date seed store in California. It has every modern feature necessary in the seed business. The store itself is very attractive, being large, well lighted, and attractively arranged. A larger stock of seeds, bulbs, spray materials, poultry supplies, etc., will be carried to meet the demands of their steadily increasing patronage.

The Knox Seed Company was founded in 1916 by Mr. James Knox. Through Mr. Knox's leadership and his strict adherence that quality must never be sacrificed for quantity or price, the business has grown to its present proportions.

Knox's seeds are known throughout the Pacific States for their exceptional quality and it will always be the aim of the present owners to improve the quality. The success of many a crop depends upon the seed. Poor seed never made a bumper crop on the best of land. Assure yourself of the right start by planting Knox's Quality Seeds.

COVER CROPS — THE IDEAL WAY TO ENRICH YOUR LAND

Cover Crops—Plant More of Them

The use of cover crops in California is becoming greater and more necessary every year. Constant cropping of old lands has sadly depleted the rich soils of the State. A cover crop will do many things that are beneficial to the land.

The first of this is the growing of a great amount of green manure which when turned under furnishes humus to the soil. A certain amount of nitrogen is also formed by the decaying of this material.

The second and most important feature is the root system. The long roots penetrate through the plow sole and allow the soil to take up water more readily. This is very important.

The legume crops also have certain nitrogen gathering abilities. The nitrogen is gathered from the air and stored up in nodules formed on the roots.

(Continued on Page 7)

IMPORTED HOLLAND BULBS

Will Produce Earliest Spring Flowers

BEAUTIFUL TULIPS

The King of All Bulbs

Did you admire the beautiful tulips in Stockton last year? You too can have an abundance of gorgeous flowers such as those by planting Knox's Tulips. They are very hardy, easily cared for, flower so freely in city or country, sun or shade that it naturally follows that they are immensely popular.

A few bulbs scattered here and there produce little effect but when planted in masses or in groups, they become at once grand and brilliant, and eclipse in variety of coloring and picturesqueness almost any other flower. Plant five or six inches apart, and cover to a depth of four to six inches—the greater depth for lighter soils. For house culture plant four to six bulbs in a six-inch pot, and in proportion for the larger sized bulb pans. Good roots and plenty of them before bringing plants to light are essential to success.

GIANT FLOWERING TULIPS

Darwins are rapidly becoming the most popular Tulip for outside planting. They flower in May, are of giant size and have a majestic beauty distinctively their own that is invaluable for garden and landscape effects. They come in the most varied and brilliant colorings, and their immense globular flowers of perfect form and satiny, wax-like texture, long stems and lasting qualities, make them ideal for cutting.

DARWIN TULIPS

	Each	Doz.	100
MRS. POTTER PALMER, bright purplish violet	\$.07	\$.70	\$ 5.00
PHIL DE COMMINES, dark purple07	.70	5.00
REV. H. EUBANK, heliotrope-lilac07	.65	4.25
BLUE AIMABLE, violet-purple, blue base07	.70	5.00
ZULU, velvety purple-black07	.70	5.00
VALENTINE, blue violet07	.70	5.00
GRETCHEN, pale rose, flushed white06	.60	4.00
PAINTED LADY, white, tinged heliotrope07	.65	4.25
FRA ANGELICO, black07	.75	5.75
EUROPE, scarlet shaded rose07	.70	5.00
FARNCOMBE SANDERS rose-scarlet07	.70	5.00
PROF. RAUWENHOFF, cherry rose, white and blue base07	.70	5.00
PRIDE OF HAARLEM, bright rose07	.70	5.00
KING HAROLD, deep purple red, white base07	.70	5.00
BARONNE DE LA TONNAYE, bright rose07	.70	5.00
CLARA BUTT, rosy pink07	.65	4.25
CENTENAIRE, deep pink, blue center07	.65	4.25
LOVELINESS, carmine rose07	.70	5.00
MADAM KRELAGE, lilac-rose07	.70	5.00
PRINCESS ELIZABETH, vivid rosy pink07	.70	5.00
BARTIGON, carmine red, white base07	.70	5.00
WM. COPLAND, bright violet07	.70	5.00
DREAM, soft uniform lilac07	.70	5.00
ISIS, fiery crimson-scarlet with blue base07	.70	5.00
MIXED DARWINS06	.50	3.50
Ship wt.	3 oz.	1 lb.	5 lbs.

BREEDER TULIPS

Breeder Tulips differ from Darwins in that the primary colors are not found in this class. The type of flower is the same and the period of blooming very close.

	Each	Doz.	100
PRINCE OF ORANGE, orange	\$.09	\$.80	\$ 6.00
BRONZE QUEEN, bisquit color07	.70	5.00
ST. JAMES, rosy gold bronze edged09	.80	6.00
Ship wt.	3 oz.	1 lb.	5 lbs.

Cottage Tulips make up for the lack of yellows in the Darwin class. Their time of blooming is a little later than the Darwin. The flowers are slightly smaller and the petals are pointed.

Closely resembles the exquisite lily.

MAY FLOWERING OR COTTAGE TULIPS

Desirable for borders, beds or among early flowering hardy plants. Good cut flower.

	Each	Doz.	100
INGLEScombe YELLOW, pure yellow07	.70	5.00
MOONLIGHT, sulphur yellow07	.70	5.00
GESNERIANA SPATHULATA dazzling scarlet07	.70	5.00
MACROSPHILA carmine red, black and yellow base07	.70	5.00
FAIRY QUEEN, heliotrope with yellow07	.70	5.00
NORHAM Beauty, rose heliotrope07	.70	5.00
flushed amber07	.70	5.00
PICOTEE, white, margined pink07	.70	5.00
JOHN RUSKIN apricot orange, flushed pink and gold08	.75	5.75
GRENADIER, dazzling vermillion08	.75	5.75
GESNERIANA LUTEA, golden yellow07	.70	5.00
MIXED COLORS06	.50	3.25
Ship wt.	3 oz.	1 lb.	5 lbs.

LILY FLOWERED TULIPS

	Each	Doz.
SIRENE, satinrose	\$.08	\$.75
Ship	2 oz.	12 oz.

PARROT TULIPS

Resembles a parrot's beak. Very artistic as a cut flower. Easily grown.

MIXED COLORS	\$.07	\$.70	\$ 5.00
Ship wt.	3 oz.	1 lb.	5 lbs.

REMBRANDT TULIPS

These are "Broken Tulips" on account of their odd colorings and variegations. The stems average from 18 to 22 inches in height.

MIXED COLORS	\$.09	\$.80	\$ 6.00
Ship wt.	3 oz.	1 lb.	5 lbs.

HYACINTHS

There is nothing more attractive than a planting of Hyacinths, with their brilliant colors, ranging through nearly every shade of red, white, yellow and blue and their fragrance together with their long keeping qualities and decorative appearance. They may be followed in the house as early as January and a succession of bloom may be secured until April by planting at suitable intervals.

THE CULTURE OF HYACINTHS is the same as that of Tulips, except that the bulbs should be planted about four inches deep and six to ten inches apart.

POT CULTURE IN THE HOUSE—Plant from September to December in rich, sandy loam, in four or five-inch pots, in flats or in pans. Plant the bulbs so that its top will be just below the surface. Do not pack the soil in pots.

GLASS CULTURE — To grow in glasses, fill with water until the base of each bulb rests on the water and set away in the dark as directed for pot culture. Fill up the glass with water as fast as it evaporates.

After roots have attained a good growth the glass can be brought into the light and placed in a cool room near a window. Give the plants plenty of light. 20c each; \$2.25 doz.; \$16.00 per 100.

CITY OF HAARLAM, bright golden yellow, large spike, extra fine.

L'INNOCENCE, pure white, broad loose spike of elegant form, very large well shaped bells, early and excellent for forcing, and good bedder. It is used in large quantities all over the world. The most popular of all white Hyacinths.

Hyacinths

QUEEN OF THE BLUES, fine light blue with beautiful silvery shade, fine large spike. One of the best pot Hyacinths for medium late.

GERTRUDE, rosy pink, compact flower and large bulb, a first class forcing variety, profitable for market work. Being of erect habit, it is excellent for bedding.

GRAND MAITRE, deep porcelain blue.

QUEEN OF THE PINKS, lovely pink, largest compact spike.

KING OF THE BLUES, dark blue, extra large spike,

ROI des RELGES, dark red, very fine truss.

MIXED COLORS, 10c ea.; 90c. doz; \$7.00 100.

NARCISSUS

POETICUS (Pheasant's Eye). The well known Poet's Narcissus; pure white with red crown; very fragrant; excellent for bedding. For naturalizing in wild gardens this is one of the best sorts. Perfectly hardy. Select bulbs... 9c each; 75c per doz.; \$6.00 per 100.

PAPER WHITE NARCISSUS

This is the most popular of all of the bulbs for indoor culture. They may be grown in pots of earth, but usually do best in bowls or dishes of water, by which method the bulbs may be brought into profuse bloom in from six to eight weeks.

One of the best methods of growing them is to use a bowl six to eight inches in diameter, fill the bowl about half full of small stones or pebbles, place the bulbs in the stones and fill with water. They should be kept in a dark place for ten days to two weeks, then kept in a warm sunny place. Our bulbs are large, well matured and sure bloomers. Prices, 8c ea.; 75c doz.; \$5.75 per 100.

GRACEFUL JONQUILS

SINGLE SWEET SCENTED—Deep yellow, free blooming. Select bulbs. 14c ea.; \$1.45 per doz.; \$10.00 per 100.

CHINESE SACRED LILY

Also called Joss Flower, Water Fairy Flower and Oriental New Year's Lily. The flowers of this variety of Polyanthus Narcissus introduced from China are satiny white with golden yellow cup. They are borne profusely in clusters and are very fragrant.

CHINESE SACRED LILY — A variety usually grown in Lily Bowls with water. These are selected Bulbs. Large bulbs 15c each; \$1.50 per doz.; \$10.00 per 100.

DAFFODIL

KING ALFRED—This is a perfect flower. Very large; trumpet long, and deep yellow. And a floriferous producer. No doubt the best of the all-yellow varieties. Mammoth Bulbs. Each 20c; per doz., \$2.25; per 100, \$16.00.

EMPEROR

The most popular of all daffodils.

DAINTY DAFFODILS

Will Grow Anywhere—Sure to Bloom

These are among the most charming of our spring flowers, that all conditions seem to suit, although they seem to have a preference for good deep soil and semi-shaded positions. Every vacant corner in the garden grass, or among the trees could not be used to a better advantage than by filling with Daffodils, and every border should have a number of clumps interspersed through it. They will furnish cut flowers in abundance and readily establish themselves permanently.

OUTDOOR CULTURE — Plant in early fall if possible, but plantings as late as Christmas will give excellent results. The depth to plant is one and one-half the depth of the bulb. This gives a covering of two to three inches of soil. Any good garden soil which has not been recently manured will give satisfactory flowers, but a deep, moist loam is best. The best fertilizer is ground bone. This can be used with safety on poor sandy soil.

EMPEROR—Trumpet yellow, primrose perianth; fine large handsome flower; splendid for pot culture, naturalizing and bedding. Height 20 in. 14c ea.; \$1.45 doz.; \$10.00 per 100.

VICTORIA—Trumpet rich yellow, perianth white; a strong grower and free bloomer, large flower and handsome foliage; of rare beauty for cutting, splendid for bedding, pots and naturalizing in grass. Height 18 inches. 14c ea.; \$1.45 doz.; \$10.00 per 100.

VON SION, double yellow, ea. 14c; per doz. \$1.45; per 100, \$10.00.

GLORY OF SASSENHE, large yellow trumpet, white perianth, ea. 14c; per doz. \$1.45; per 100 \$10.00.

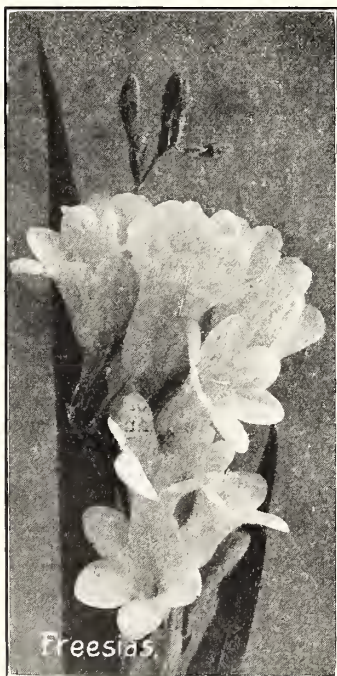

NEOLEIL D'ORA, all yellow, ea. 14c; doz. \$1.45; per 100, \$10.00.

RANUNCULUS

Everyone admires these beautiful rosette-shaped blooms in the early Spring. The flowers are several inches across, in many Oriental colors. They bloom very freely for several months and are specially offered to you for bedding, massing, potting or borders. We have some especially fine bulbs at 70c per doz. and \$5.00 per 100.

CULTURE — Before planting the roots soak them in water for two or three hours; this causes them to swell to full size. Plant them in a good, rich soil, claws downward, six to eight inches apart each way and cover the roots with two inches of finely sifted soil.

Freesias

SNOWFLAKES

White with green flakes on bell shaped Flowers.

write for prices.

TUBEROSE

Ready in January

The flowers grow on stems 18 inches high, each stem bearing about a dozen flowers. Pure white.

Each doz. 100

CALADIUMS

Ready in January

(Elephant's Ears). Large leaf plants without flowers, which gives it a tropical appearance to the home garden.

Caladiums each doz.

PEONIES

Plant them in deep rich soil, setting the roots so that the crowns are covered with two inches of earth.

White, 50c ea.; \$5.50 per doz.

Pink, 50c ea.; \$5.50 per doz.

Red, 50c ea.; \$5.50 per doz.

AMARYLLIS

NEW HYBRIDS, Giant Flowered.

This selection of giant bloomers in wonderfully varied and brilliant colorings has been made from thousands of seedlings produced from hand-hybridized flowers by an expert grower. 75c ea.; \$8.50 doz.

IRIS

Spanish Iris

The flowers are of great beauty, having many different blendings of color. Good cut flower.

CAJANUS, yellow, ea. 9c; doz., 80c; 100 \$6.00.

KING OF THE BLUES, blue, ea. 9c; doz. 80c; 100 \$6.00.

MIXED COLORS, ea. 9c; doz. 80c; 100 \$6.00.

DUTCH IRIS

Resembles the well known Spanish Iris, but their habit of growth is more vigorous and a nearer approach to the English type.

MIXED COLORS, ea. 9c; doz. 85c; 100 \$6.50.

FREESIAS

These hardy and easily grown bulbs are found in nearly every garden, coming up year after year. Until a few years ago we could only offer the white form. They are now to be had in a rainbow of colors: lavenders, creams, oranges and pinks in our special.

Rainbow Mixture of Colored Freesias, 6c ea.; 60c per doz.; \$4.00 per 100.

Improved Purity—Giant pure white. Large bulbs, 25c per doz.; \$1.75 per 100.

ANEMONES

Anemones are very ornamental, hardy perennials, producing beautiful colored flowers in spring and summer. Very effective in beds. Plant from September to February.

They flower early in spring and make a pretty display when planted in a bed or a border. Plant bulbs 1 inch below the surface and 6 inches apart. Soak in water before planting.

CAEN'S Shades of Red and Blue, 75c per doz., \$5.00 per 100.

St. Brigid—Semi double, mixed 9c ea.; 85c per doz.; \$6.50 per 100.

CROCUS

Crocus require very little attention and they are one of the first flowers to bloom in the Spring. Planted in masses or 3 or 4 rows arranged in a border, they are very effective. They must not be planted more than one inch deep as if planted too deeply they sometimes fail to bloom. They are ornamental when flowered in pots.

MIXED ea. 6c; 60c per doz.; \$4.00 per 100.

CROCUS—AUTUMN FLOWERING

Will grow without dirt or water.

SPECIOSUS, bright blue ea. 7c; doz. 70c.

ZONATUS, light lilac, ea. 7c; doz. 70c.

SATIVUS, saffron, ea. 7c; doz. 70c.

KNOX'S GIANT SPENCER SWEET PEAS

Free Flowering---Easy to Care For Late or Standard Spencers

Sweet Peas command the attention and admiration of every lover of flowers. They are so easy to grow, and produce such wonderful effects no home should be without them. Plant them along the fence, against the house or garage or string them up on wires or netting in the center of the yard. A southeast exposure is best but they will bloom most anywhere if they get part sunshine.

Plant them now and they will grow during the winter and develop a good strong root system and naturally produce a much larger and more beautiful flower. A liberal application of Knox's Quality Fertilizer spaded in at the rate of five pounds to a fifty foot row will materially aid the growth of plants. After spading break up any lumps and tamp the soil down very firm. Sweet Peas desire a firm seed bed to produce sturdy growth and long stems. Plant the seeds about one inch deep and six inches apart. Most people plant them too close together. After planting soak the ground

good and as the ground dries keep the top worked up so that it will not crust or bake. When the plants are about three inches high it is time to provide some means of support. Stakes with strong string supports are fairly good but wire mesh is much better. Keep pruning out the lateral branches that have a tendency to cover one another as crowded plants never produce fine flowers. As fast as the sweet peas blossom cut (do not pull) them off as withered or dry blossoms spoil their looks and will cause them to go to seed too soon.

The sweet pea seeds we offer are grown by the best growers in the world and we can safely and conscientiously say that there are none better. A great deal of time and money is spent bringing out new and better varieties and improving the older sorts.

We submit the following list as the cream of varieties and feel sure that they will give entire satisfaction.

LATE STANDARD SPENCER SWEET PEAS

	Pkt.	oz.	1/4 lb.
ASTA OHN, pinkish lavender	\$.10	\$.30	\$1.00
AUSTIN FREDERICK, improved, large pure lavender10	.30	1.00

EARLY FLOWERING SWEET PEA NOVELTIES

EARLY MARINE

It is the clearest of all blues of the early varieties. Both standard and wings carry this truest blue evenly throughout the entire flower.

Pkt. 15c.

EARLY SUNRAY

The color is brilliant, glowing yet soft cerise on cream ground with just a suspicion of orange suffusion.

Pkg. 15c

EARLY BELLE

The color of this exquisite novelty is clear rose pink on deep cream ground. The color is laid on evenly on both standard and wings showing however an intensification of cream at the base of standard.

Pkg. 15c.

EARLY ORIENTAL

The color is clear, deepest cream and though it is black seeded shows not the slightest trace of pink as do most black seeded creams.

Pkg. 15c

EARLY ALAMEDA

The color is deep rose pink almost approaching the cerise, overlaid with glowing salmon cerise pink. The wings carry a more intensified suffusion of salmon than the standard, yet the color of both standard and wings is clear and evenly laid on.

Pkg. 15c

LATHYRUS LATIFOLIUS OR EVER-LASTING SWEET PEAS.

Pink Beauty, 10c.pkt.

Red Magenta, 10c pkt.

Mixed Colors, 10c pkt.

CUPID SWEET PEAS

A low growing variety

Mixed colors, 10c pkt.

(Sweet Peas Continued on Page 7)

KNOX'S GLADIOLI

Note:—These bulbs we offer are all first or top size.

Gladioli are the most popular of all the Summer flowering bulbs and wrightfully so, they have so many excellent qualities and uses. Every garden should have some planted, especially for cutting, or for massing, or for filling in here and there among perennials, and shrubbery where a splash of bright color will be effective. Our prices have been fixed at popular figures to encourage their use in quantity for we know what satisfaction will be yours to have these beautiful flowers in abundance.

Gladioli thrive in almost any good soil, but better results may be had if well prepared and enriched with some of our pulverized manures. Water freely, especially during the flowering season. Exposure to the sun is essential at all times. We advise planting from October to May, and should successive plantings be made, flowers can be had until October.

Bulbs may be set 4 inches deep in rows either singly or double, leaving about 4 inches between bulbs in drills 2 feet apart. When a mass effect is desired, plant from 6 to 8 inches apart.

GLADIOLUS

	Each	Doz.	100
ALICE TIPLADY, orange saffron	\$.06	\$.60	\$4.00
BARON HULOT, rich indigo blue09	.80	6.00

VIRGINIA, glowing scarlet06	.60	4.00

BABY GLADIOLUS

This type of Gladiolus blooms in May. The flowers, borne on long stems, are extensively used for cut flowers.

Peach Blossom, pink	8c ea., 75c doz., \$5.75 100
Cardinalis Elegans, red	8c ea., 75c doz., \$5.75 100
The Bride, white	8c ea., 75c doz., \$5.75 100

SCILLA

Splendid for naturalizing Blooms well in shady places and are fine for borders.

MIXED COLORS, 7c ea.; 65c Doz.

Knox Seed Company Appointed Distributors For VIGORO Fertilizer

By the appointment of Swift & Company to distribute "Vigoro" fertilizer the Knox Seed Company will bring to Stockton the best and most widely used fertilizer in the United States.

With a background of many years of experience and a thorough understanding of all aspects of plant feeding, Swift & Company originated Vigoro.

To meet the demand for a better plant food, Vigoro was made complete—containing all of the elements essential to growth.

This fact eliminates the difficulties encountered when incomplete materials are used.

With Vigoro there need be no fear of omitting some essential element needed in the soil.

The amount of each element was made proportionate to average plant needs on average soil as determined by field plot experimentation. Thus proper balance was attained.

Since no refuse materials are used, Vigoro is odorless and free from troublesome weed seed.

With Vigoro, home owners can rest assured that they are applying the best plant food science and experience can manufacture.

CINNAMON VINE

Ready in January

Well-known hardy climber; quick grower, with beautiful glossy heart-shaped leaves and sweet-scented flowers. Vines will run 25 to 40 feet in a season.

Each Doz.

MADEIRA VINE

Ready in January

One of the best and most popular climbers for foliage effect. Increases very rapidly.

Each Doz.

DIELYTRA SPECTABILIS

Bleeding Heart

An old-fashioned favorite, with long racemes of graceful heart shaped pink flowers that are always attractive.

50c each; \$5.50 doz.

LILIES

Ready in November (write for prices)

AURATUM (The Gold Banded Lily of Japan). Flowers pure white, background, dotted with crimson spots. White through the center of each petal runs a golden band.

Each Doz. 100

RUBRUM (Pink Tiger Lily). White spotted and rayed rosy red.

Each Doz. 100

TIGRINUM (Tiger Lily) Flowers bright orange-red with black spots and red anthers; recurved petals.

Each Doz. 100

LILIUM CANDIDIUM OR ST. JOSEPH. Pure waxy white flowers.

15c each, \$1.50 doz., \$10.00 100

CALLA LILLY

Known to every lover of flowers. It is one of the most beautiful blooms, and cannot be too highly recommended.

AETHIOPICA, the White Calla Lily, or Lily of the Nile, too well known to need further description.

15c each, \$1.50 doz.

ELLIOTTIANA, a Yellow Calla Lily of great beauty. For bedding or pot culture. Easy to grow.

35c each, \$3.75 doz.

GLORY OF THE SNOW (Chionodoxa)

Bright, blue with large clear white center
6c ea., 60c doz., \$4.00 100

KNOX'S QUALITY SEEDS

SEEDOLOGY

PUBLISHED BY KNOX SEED CO.

Vol. 1. EARLY FALL 1929 No. 3

The third edition of "Seedology" is presented at a time immediately following a marked advancement in the history of Knox's Seed Company. The new store which they now own and occupy is a tribute to their progressive method of business and high standard of quality of their seeds. Without this thought constantly in the minds of the management the business could not have grown to its present proportions. Without the patronage of those who place great faith in the seeds of Knox Seed Company, this goal would never have been reached. It will always be the aim of the management to hold the standard of quality far above reproach, to sell merchandise at a fair and reasonable profit. To require a knowledge of the new developments relating to their business and to cheerfully give any information within their power to anyone whom may ask for it. Only by adhering to this principle may they endure.

IMPORTED GERMAN ROLLER CANARIES

Have you ever wished you owned a real hand trained imported German Roller Canary? We have on hand a number of wonderful singers, genuine rollers. All birds are in full song with beautiful toned voices. Drop in and listen to their wonderful songs.

OUR SPRAY DEPARTMENT

We have for a number of years maintained the most complete spray department in this section. Constant contact with professional and amateur gardeners have given us the necessary experience to advise our customers of

the necessary control of their garden pests. Each case must be treated differently under various conditions and will require different methods and materials for control.

All pests may be classified into any one of four groups, namely: bacterial diseases, fungus disease, chewing insects and sucking insects. Of these four groups there may be any one of a dozen different diseases or insects each requiring a different control. Before you experiment, spraying your garden consult our spray department. Advice is freely given on any spray problem.

COVER CROPS

(Continued from Page 1)

There are several different plants used for cover crops. Melilotus Indica, Vetch, Canadian Peas, Horse Beans, Burr Clover and Rye are all used for this purpose. More Melilotus Indica is used than every other kind of cover crops put together. It has proven the cheapest and the best.

The seed is sown in August or September at from 15 to 20 pounds per acre. In vineyards they sometimes let the pickers tramp it in but a light harrowing is best. The ground should be irrigated before or after it is planted. By early sowing quite a growth is possible before heavy frosts set in to retard the growth. It should be plowed under not later than March to get the benefits of the late rains to aid in decaying the green manure.

Melilotus Indica is the cheapest and best cover crop to aid in building up your land. Use more of it.

NEW 1930 NOVELTIES.

Sweet Peas—Late or Standard.

BLUE FLAME

The largest dark blue Sweet Pea in existence. It is more truly a true deep blue with the standard bearing a little deeper color than the wings. Pkg. 25c

MISS DELIGHT

Magnificent double Sweet Pea having beautifully waved petals. There is a duplexing of both standard and wings, giving the appearance of a true double form. The color is best described as warm light salmon pink on cream ground with a decided amber suffusion, which gives life to the blossom. Pkg. 25c.

RIPPLES

A charming rose pink variety of gay and pleasing shading. The flushed rose on deep cream ground appears intensified in the center of the standard and edges of the wings. The standard has a margin of lighter pink which lightens and brightens the flower. Pkg. 25c.

SERENADE

A beautiful warm, bright cerise Sweet Pea on cream ground. There is a delicate salmon suffusion which is laid on evenly throughout the entire flower. Pkg. 25c.

BUCKEYE INCUBATORS SET THE STANDARD

The invention of the Buckeye incubator set new standards for hatching performance. It showed poultrymen they could get bigger hatches and better chicks than ever before thought possible. The Buckeye Hot Water Heating System insures a perfect balance of temperature, ventilation, and moisture as no other type system can do. The Buckeye All-Metal Thermostat is one of the greatest contributions to artificial incubation. It reduces temperature regulation to a science.

These and many other features mean that with Buckeye incubators the unfailing result is a high percentage hatch of fine, fluffy, healthy chicks. And Buckeyes take less time and attention. They save you trouble and worry. They cost less to operate.

Tested and Proved by Over a Million Users.

Buckeye Incubators and Brooders have proved their money-making ability. They have proved it in the hands of nearly a million farmers and poultrymen. Think of it. More than 500,000 users have proved Buckeye brooders' ability to stop the losses; its ability to raise every raisable chick. More than half a million users have proved the ability of Buckeye incubators to hatch every hatchable egg. To thousands of poultrymen Buckeye's ability has been so amazing, so incomparable, that they have actually discarded all other incubators and brooders and use Buckeyes, and Buckeyes only.

And that isn't all. Buckeye incubators and brooders have been tested and proved by experimental stations, and by agricultural colleges.

SNOWDROPS

The first flowers to bloom in the spring and of very easy culture. Pure White, each 7c; doz., 65c; 100 \$4.25.

GRAPE HYACINTHS

Beautiful little flowers for massing or borders. Also good for pot culture and for growing in fibre. Blue, each 7c; doz. 65c; 100 \$4.25.

IXIA.

Beautiful winter-flowering bulbs, with long, slender, graceful flower spikes. Colors are very rich, varied and beautiful. Mixed colors, each 6c; doz. 60c; 100 \$4.00.

Red, 6c ea.; doz. 60c; 100 \$4.00.
Yellow, 5c ea.; doz. 60c; 100 \$4.00.
Blue and White, ea., 6c; doz. 60c; 100 \$4.00.

ALL BRIGHT—(Sweet Pea)

This gives one the impression of a very intense scarlet cerise which describes this variety very well. It is exceedingly brilliant, and the orange suffusion heightens the color to a fiery scarlet which puts this to the top of the list of red Sweet Peas. Pkg. 25c.

EASY TO GROW BULBS WITH SEMESAN

Semesan provides a disease-free start for Hyacinths, Tulips, Gladioli, Freesias and all other bulbs, Calendulas, Asters and hundreds of other flowers. Easy to use either as dust or a liquid. No special skill or equipment required. Recommended by flower growers in all sections. You are losing bulbs, blooms and money when you plant without Semesan. Harmless to the most delicate bulbs and seeds, but deadly to fungus and disease parasites. Produces earlier, larger and better flowers.

Prices—Semesan, 2 ozs., 50c; 1 lb., \$2.75; 5 lbs., \$13.00; 25 lbs.,—Not Mailable.

FLOWER SEEDS

NOTICE

No flower seeds sold at oz. prices in quantities of less than 25c.

Annual—A; Perennial—P; Hardy Annuals—HA; Hardy Perennial—HP; Half Hardy Annuals—HHA.
All flower seeds are postpaid.

	Pkt.	oz.
ACROCLINUM (Everlasting). A. Half hardy daisy like flower. Leaves narrow. Mixed colors...	.10	.75
ACONITUM, Monk's Hood—A hardy perennial valuable for planting among shrubs or in shady places, producing spikes of deep blue flowers 3 or 4 feet tall10	
ASTERS—A. Branching Comet : Flowers of Comet very large. Mixed colors10	2.50
ASTERS—A. Improved Crego : Flowers large and double of the Comet type. 2 feet high. White, Crimson, Lavender, Purple, Azure Blue, Shell Pink, mixed colors10	2.50
ASTERS—A. Early Wonder . Early, flowers good size, borne on stiff stems. Mixed colors.....	.10	3.00
ASTERS—A. The Chinese . Petals narrow, very long and gracefully, reflexed. Mixed colors...	.10	2.50
ASTERS—A. American Branching : 24 to 30 inches high. Flowers are branching in habit. Mixed colors10	2.50
ASTERS—A. Giant Comet : Flowers have a light, feathery appearance, very large. Mixed colors10	2.50
ASTERS—A. Heart of France : A rich dark red flower of branching habit10	3.25
ASTERS—A. The King : Petals resemble the quilled varieties. The blooms round, full and very large10	2.00
ASTERS, GIANTS OF CALIFORNIA—Flowers large and double, ideal cut flower. White, Light Blue, Deep Rose, Dark Purple and Mixed colors10	4.00
ASTERS, LATE BEAUTY—Plants about 2 to 3 feet high, of branching habit. Flowers large. Carmine Rose, Crimson, White Beauty and Mixed colors10	3.00
ASTERS, SUNSHINE or improved Anemone Flowered, Single. Mixed colors10	3.50
ANCHUSA (italica) P. Rich blue tones. Very effective either in solid beds or in the hardy border10	
AMARANTHUS — (Tricolor) Joseph's Coat—HA. Leaves, yellow, red and green, 2 feet high.....	.10	
AMARANTHUS—(Caudatus) — Love-Lies-Bleeding—HA. Produces long and drooping chains of brilliant colored flowers.....	.10	.50
ANEMONE—(Wind Flower) HP. Valuable for edging or massing and are profuse bloomers of beautiful colored flowers. Mixed colors.....	.10	
ARCTOTIS GRANDIS — (African Lilac Daisy) HHA. Pearly white Marguerite-like flowers with mauve center surrounded by a narrow gold band10	1.00
AGERATUM—(Floss Flower) HA. Bushy habit with feathery flowers borne in dense clusters. Blue Perfection; deep blue10	.90
	.10	.90
ALYSSUM—A. (Sweet Maritimum) small white Cruciform flowers10	.50
ALYSSUM—P. (Saxatile Compactum) (Basket of Gold) yellow flowers10	.75
ALYSSUM — A (Compactum Lilacinum) (Lilac Carpet Plant) delicate lavender flowers.....	.10	.75
ALYSSUM—A (Carpet of Snow) (Little Gem) Pure white, very dwarf, sweet scented.....	.10	1.00
AQUILEGIA — (Columbine) P. Flowers long-spurred, gracefully hung on long stems. Single Mixed colors.....	.10	5.50
AQUILEGIA — (Columbine) P. Flowers double. Mixed colors10	1.50
ANTIRRHINUM (Snapdragon) P. Flowers of the most brilliant colors, which remain in bloom from early July until frost.		
Copper King, bronze10	6.00
Old Gold, yellow10	6.00
Snowflake, white10	6.00
The Rose, pink10	6.00
Red10	6.00
Mixed Colors10	4.00
Pastal Shades, a mixture of light colors.....	.10	4.50
ARGEMONE GRANDIFLORA—A. (The Prickly Poppy). Poppy-like flowers, snowy white with golden stamens in the center10	
ALONSOA—(Mask Flower) A. 2 feet. Flowers are vermilion scarlet with golden stamens....	.10	
ABRONIA—(Sand Verbena) A. Rosy lilac, 6 inches. A trailing annual, thrives in a dry location10	
ADONIS—(Pheasant's Eye) P. 18 inches. Large star-shaped flowers. Mixed colors.....	.10	
ACHILLIA—(The Pearl) HP. 2 ft. Pure white, fine for cutting, blooms all summer.....	.10	
ARABIS — P. (Rock Cress) Charming dwarf Spring-flowering plants of easy cultivation...	.10	
ABUTILON—(Flowering Maple or Chinese Flower) HHP. 3-4 ft. Grows rapidly, leaves ornamental, flowers bell shaped borne the year round15	
ARISTOLOCHIA—(Dutchman's Pipe) P. Climber. 30 ft. Showy foliage, flowers shaped like a Dutchman's Pipe15	
ARMERIA—Formosa (Sea Pink) P. Flowers rose pink. For flower borders or permanent edgings10	
ADELUMIA—Cirrhusa (Alleghany Vine). P. 15 ft. Feathery foliage, rose, pink and white flowers10	
AUSTRALIAN PEA VINE: climber P. Flowering freely in large clusters of rose and purple blossoms10	1.50
ASPARAGUS FERN P. (Plumosa Nanus) Lace Fern. Has very delicate graceful foliage.....	.10	
ASPARAGUS FERN—P. (Sprenger) Emerald Feather. Of drooping growth. Graceful plant for hanging baskets10	
BALLOON VINE (Love in a Pot) A. Climber. Small white flowers followed by inflated seed10	
BRACHYCOME (Swan River Daisy) A. Blue.... and white flowers suitable for edgings or pot culture10	
BEAN SCARLET RUNNER—A. Climber with bright red flowers10	
BROWALLIA—A. (Grandiflora) 1 foot high. Small bushes with sky-blue flowers.....	.10	
BLEEDING HEART—P. Has elegant green foliage and long drooping racemes of heart-shaped flowers15	
BUDDLEIA—(Butterfly Bush) P. A Small shrub bearing exquisite tapering spikes of lilac mauve, flowers10	
BALSAM A. (Touch-me-not or Lady Slipper) Camellia. A waxy flower of elegant shades of colors. Mixed colors10	1.25
Rose Flowered, Mixed colors10	2.00
BALSAM APPLE—A Climber. Quick growing with ornamental foliage10	1.00
BEGONIA—P. Valuable for decorative plants for the house during winter. Mixed colors.....	.15	
CALENDULA (Old Fashioned Marigold) A. Yellow and orange flowers. Grows 1 ft. and remains in bloom for several months.....	.10	
Campfire—Dark orange with a scarlet sheen..	.10	.50
Orange King—pure orange color.....	.10	.50
Lemon Queen—pure lemon color.....	.10	.50
Mixed colors10	.50
CANDYTUFT A. (Iberis Umbellata) For massing in flower beds and borders. Are of fine habit and profuse bloomers. Mixed colors10	.50
CLARKIA—A. Plants are about 1½ feet high and profuse bloomers. Bright colored flowers. Mixed colors10	1.50
COBAEA (Scandens) A. A rapid growing climber with beautiful dark green foliage, bearing on graceful stems, large bell shaped flowers.....	.10	1.25
COREOPSIS: (Lanceolata, Grandiflora) P. Grows 2 ft. high and bears profusely yellow flowers10	.50
CLIANTHUS—(Glory Pea of Australia) Clusters of bright red flowers with black spots.....	.15	
CUPHEA—HHP. Small scarlet and black tubular flowers; dark green foliage10	
CYCLAMEN—A tender perennial used in green houses and winter gardens25

FIELD SEEDS

For quantities on all field and grass seeds write for prices, stating quantity wanted.

LAWN GRASS SEEDS

Knox's Grass Seeds are selected for their high purity and germinating ability. Only the very best seed is allowed to go into their mixtures. They are thoroughly cleaned to a higher standard than is usual throughout the country. You may rest assured that when you buy Knox's Grass Seeds you are buying the best obtainable and should not be compared with cheap inferior seed.
